## WASHINGTON.

### NEW YEAR'S AT THE CAPITOL.

#### Reception at the White House.

WASHINGTON, Jan. 1, 1879.

The early morning was pleasant, but the snow began to fall about ten o'clock, seriously interfering with the plans of many who had expected to make their calls without the aid of a carriage. The White House was the first centre of attraction, and just before eleven the members of the Diplomatic Corps, with their ladies, came in their handsome equipages, the diplomats wearing their court uniforms and their servants their full dress liveries. The Chinese wore their national costumes and excited much attention. Vice President Wheeler was present by special invitation, and aided the President in receiving. Gen. Sherman having just learned the death of his brother, Judge Chas. Sherman, the father of Mrs. Senator Cameron, was not present, and Quartermaster General Meigs headed the army officers. After the official receptions at the White House those who had participated hastened to their respective houses and received their friends. A salute was fired at noon by the District militiamen.

THE BAD RECORD OF A SPECIAL AGENT.

There is much regret among the Republicans and corresponding rejoicing among the Democrats that the special Agent of the Department of Justice sent South to report upon frauds in the elections, and whose report has just been given to the press, was one of the detectives dismissed from the Treasury Department for complicity in the "safe burglary" conspiracy.

## FOREIGN NEWS.

THE FRANCO-AMERICAN TREATY OF COMMERCE.

PARIS, Jan. 1.

The French Committee on the Franco-American treaty of commerce, yesterday, gave Leon Chatteau his final instructions previous to his departure for the United States.

THE POSITION OF THE FRANCH CABINET.

LONDON, Jan. 1.

The Times Paris dispatch says: "Though the coming elections do not endanger the Cabinet, the Ministers have perceived they ought to ask a kind of reinstatement from the new majority in the Senate, and have agreed upon a program which will be submitted at the opening of the session and will insist that no reform be adopted without full discussion.

BISMARCK'S FINANCIAL PLANS.

LONDON, Jan. 2.

The Times Berlin dispatch says the majority of the Federal Council are friendly to the general principle of Bismarck's financial scheme. It is thought Bismarck will secure the support of the rural members of the Reichstag by protecting native corn and cattle. Although the Liberals will determinedly oppose the measure, they are probably aware their protest will be little more than formal.

THE REDUCTION ACCEPTED AT OLDHAM.—THE STRIKE OVER.

LONDON, Jan. 2.

The Oldham cotton strike has terminated. At a conference between the employers and the operatives' committees, today, the latter unconditionally accepted the proposed reduction. It is expected work will be fully resumed Monday.

THE MONETARY LOSS.

The Oldham masters refused to pledge themselves to restore the old hands to their former places or exempt the carders from the reduction. The loss in wages by the strike amount to £60,000 besides the expenditure of Union funds and the loss to capital by the stoppage of four million spindles. The Sun mill, the largest limited company in Oldham, announces the loss of £2,200 during the last three months. This is the greatest loss ever sustained by any company since the cotton famine.

MISCELLANEOUS.

A grand national exhibition will be held in Moscow in 1880. It will probably be accompanied by great festivities, as it will be the twenty-fifth anniversary of the Emperor's accession.

Princess Mary of Lichtenstein, formerly Miss Fox, the adopted daughter of Lord Holland, and the authoress of several works, died recently in Styria.

The London Times in a discussion of the revenue returns, concludes: If no further foreign disturbances ensue, Lord Northcote may, on the whole, be but little worse off than he anticipated.

The American ship Cromwell, last reported at Antwerp, from Baltimore, is stranded at Flushing.

The revolt of Tartars, at Kazan, Russia, has been suppressed. Two hundred rioters were publicly flogged.

A further enormous depreciation of Turkish paper money has occurred. As a consequence, numbers of bankers' shops in Constantinople are closed.

United States Consul General Heap, at Constantinople, has obtained £300 for Romer's expenses, and Romer will leave for America today.

## NEW YORK NEWS.

PROTEST AGAINST PACIFIC COMBINATIONS.

NEW YORK, Jan. 1.

The merchants and ship owners of this city are numerously signing a petition to Congress to prohibit the Pacific Railroad Companies from forming a combination with the Pacific Mail Steamship Company, by which enormous charges are made for freight transportation to San Francisco. The combination is characterized as an iniquitous and unjust monopoly.

THE NEW CITY GOVERNMENTS.

The newly elected officials of this city and Brooklyn, took possession of their offices today. Among them was General Wm. G. Steinmetz, elected Comptroller of Brooklyn, who begins his official career by an initial saving in the expenses of several thousand dollars per year.

THE MEXICAN CLAIMS AWARD.

The steamship City of New York brings $191,000 in Mexican silver dollars, of which $75,000 are for the Mexican Consul in this city. This amount completes the $300,000 instalment due this month from Mexico to the United States under the decision of the mixed commission.

### Boiler Explosion at Terre Haute.

TERRE HAUTE, Ind., Jan. 1.

An explosion of three boilers occurred, at half-past 3 o'clock this afternoon, at the distillery of Hulman & Fairbanks. William Day, colored, fireman, and Frank Hughes, a boy 14 years old were killed. Damage $5000. The three boilers, which were new, were torn to fragments. Three other batteries of three boilers each stood uninjured. The cause of the explosion is unknown.

## PERSONALS.

.....James Redpath will accompany the Tolter-Blaine Committee on the Southern investigation tour.

.....Captain Russell Stephenson, a brother-in-law of the Countess of Dufferin, has been appointed an extra aid-de-camp to His Excellency the Governor-General.

.....Francis Murphy, the Maine temperance lecturer, has had invitations to go to California. Several Western States also want him to lecture. He will probably start next week.

.....Senator Bruce has taken an elegant mansion on M street in Washington, and Mrs. Bruce "received" there yesterday. She has been called upon during the holidays by a number of white ladies.

.....Mrs. Emma Malloy, of Indiana, recently met with a serious accident while stepping from a railway train in London, falling upon the icy pavement and inflicting injuries which rendered her condition critical for several days. She is now recovering, and expects to be able to resume work in January.

## THE OLDEST OBELISK.

Next after the greatest, it may be in order to notice the oldest of the existing obelisks. This is the one close to the modern village of Matareeah, or the site of Heliopolis, in the land of Goshen, near Cairo. A single perpendicular line of hieroglyphics ornaments each side and records its erection by Osirtesen, I., or probably about B. C. 3000. The inscription, with one slight exception, is the same on all sides. A myriad of wasps' nests now completely obscure the carvings on two of the surfaces. Authorities differ regarding its height, but 68 feet, two inches is given as the latest measurement by Marriette Bey. Nearly six feet of the length is buried in the accumulation of soil deposited by the Nile: and the stone, even at the surface of the ground, presents sad evidences of the destruction caused by repeated visits of the water. The opposite sides only are equal, the measurement at the base being 6 feet 1 inch and 6 feet 3 inches. Pococke gives 6 feet and 6 feet 4 inches as his finding in the same connection. The southern side of the shaft is the best preserved, while the western is in the worst condition on account of having sealed to a height of about 15 feet. This obelisk is supposed to have stood at the entrance to the great Temple of the Sun, where Moses studied theology. Remnants of the temenos or inclosure of this sanctuary still remain.

## A WAYSIDE COURTESY.

I was once walking a short distance behind a handsomely dressed young lady, and thinking, as I looked at her beautiful clothes, "I wonder if she takes as much pains with her heart as she does with her body?" A poor man was coming up the walk with a loaded wheelbarrow, and just before he reached us he made two attempts to go into the yard of a small house, but the gate was heavy, and would swing back before he could get through. "Wait," said the young girl, springing forward, "I'll hold the gate open." And she held the gate open till he passed in and received his thanks with a pleasant smile as she went on. She deserves good clothes, I thought, "for a beautiful spirit dwells within her breast."

I once asked a devoted mother what she thought of Lord Dufferin. She straightway told me she had only seen him twice. The first time she had with her one of her beloved children, the delights of whose society she shared with Lord Dufferin for a brief ten minutes. Two years later the governor-general passing through Quebec met her again and his greeting was, "Well Mrs. ——, how's Lillian?" Can anything be more eloquent than this little story? The man who could remember over two years the weariness of a mother and the name of a child, is just the man to succeed in the delicate task of governing for the Queen in Canada. Multiply the effect of this adroit graciousness by the tens of thousands of persons with whom Lord Dufferin has conversed, and it is not difficult to account for the unbounded and unprecedented popularity of the governor-general, whom it is the lot of Lord Lorne to succeed.—[Halifax correspondence of the London Daily News.

The act of deliberately smashing a street lamp does not ordinarily seem invested with any particular pathos or heroism—generally quite the opposite. But there is something both pathetic and heroic in the case of an ex-convict in New York, calling himself Charles Fisher; who the other day committed that petty crime for the direct purpose of getting arrested, because, as he said, he was starving, and had promised his mother in Germany, who died while he was in Sing-Sing, never to steal again. Since his return from State prison he has tried in vain to make a living. After having been refused shelter in prison from the freezing weather, and doing without a morsel of food for two days, he shattered a gas lamp to save his life. The case seems to be one of genuine need, and Judge Otterbourg, who convicted the young man, is interesting himself in his behalf.

The cards for the new capitol reception at Albany have been gotten up with great care and labor, and doubtless at an expense in keeping with the magnificent outlay on the building itself. They are elaborately engraved and are six inches wide and nine long, the board being thick and the edges bevelled. In the centre is an engraving of the capitol. The upper left-hand corner bears the coat-of-arms of the State, and the upper right-hand that of the city of Albany. The larger card is accompanied by a smaller one, on which is written the name of the guest who will use it as a card of admission.

BUSINESS NOTICES.

HOSTS OF PEOPLE ARE MARTYRS

To sick headache, that infallible symptom of disordered stomach, liver and bowels. Many suffer from it as many as three or four times a week. They do so needlessly, for Hostetter's Stomach Bitters, by toning the digestive organs and regulating the bowels and liver, removes the cause, and dispels the painful symptom. The intimate sympathy between the brain and the abdominal region causes the slightest disorder affecting the latter to be reflected, as it were, in the organ of thought. The reform instituted by the bitters when the digestive, secretive and excretive functions are in a state of chaos, has other and more beneficial results, viz., the complete nutrition of the whole physical economy, the restoration of appetite and repose, and an increase in the power of the system to resist diseases of a malarial type.

**INSURANCE**

AGAINST LOSS BY FIRE

CAUSED BY

ACCIDENT, INCENDIARISM, LIGHTNING,

Or any Other Cause.

I REPRESENT the oldest company in America, and also the largest company in the United States, together with other standard American and European institutions. The Ætna of Hartford alone has paid over $45,000,000 in losses, and has now $7,000,000 assets in hand.

Insurance in such companies, with ample means, and an established reputation for fair dealing, is worth much more than in any of the numerous wealthings that totter along for a while and then go down. About fifty such companies have failed during the last year, and as many others are on the way to ruin.

The rates in these first-class companies are no higher than in the small and doubtful concerns.

Farm property taken very low for three or five years.

All losses settled at this office. For terms call on, or address by mail the undersigned at the office of this paper.

## The Newport Daily News and the Newport Journal.

The Newport Daily News is published every afternoon, (Sundays excepted,) at the News building, 18 Church street, by Davis & Pitman.

The Newport Journal is published at the same office every Saturday morning, and contains a selection of the best matter in the Daily, including editorial discussions of the topics of the week, literary miscellanies and at least one good story, the latest markets, and a complete and comprehensive summary of the news,—local and general. The Journal is a large, 32 column paper, and contains a large amount of reading matter that is valuable to readers in town or country who desire a good Newport paper, but who do not take a daily from this city.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $6 per annum, or 12 cents a week, payable to carrier.

The Newport Journal will be sent to any address in the United States, postage paid, for $2 00 a year. A discount of 50 cents is made when the WHOLE YEAR is paid STRICTLY IN ADVANCE.

These terms are invariable.

ADVERTISING RATES.

Ordinary advertisements, $1 a square, for the first insertion, and 25 cents for each continuance. Ten lines or less, in this type, make a square. Advertisements in reading matter, are charged for, at 50 per cent. extra, and are subject to editorial revision. A discount on these rates is allowed on all advertisements ordered in the daily for one week or longer. Funeral notices 50 cents each. Yearly advertisers are limited to their immediate business and are allowed twenty five changes a year. The circulations of the News and Journal being necessarily distinct, an advertisement inserted in both papers will reach entirely different sets of readers. As further inducement for advertisers to use both the News and Journal, a liberal discount on the combined rates is made.

PRINTING.

Connected with the News is a large and well appointed job printing office. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

THURSDAY, JANUARY 2, 1879.

There are prospects of a good ice crop in the vicinity of Boston.

The loss on Mr. Griswold's house by the recent fire has been adjusted and the sum fixed at $8,900.

Resumption works well thus far, though we do not see as it makes much difference in the markets or in the weather.

The Old Colony Railroad has leased the Boston, Clinton, Fitchburg and New Bedford Railroad for ninety-nine years.

The ice cutters are at work all along the line. At Conanicut Park the workmen find the crop good with a thickness of seven inches.

The Providence Tool Company, which, three years ago, after a brief suspension, gave extension notes for $3,200,000, have paid the last of these notes.

Many a man has poor credit today because of the simple neglect of another whose credit is good. As Nathan did not say to David, Art thou the man?

The noon day prayer meeting proves very interesting to those present. When the rush of January business is over there will undoubtedly be an increased attendance.

The Democrats and Greenbackers of the Maine Legislature are holding love feasts on every convenient occasion. They have agreed on a fusion ticket and will probably elect it.

Rt. Rev. Bishop Clark is building a first class residence on an eastern slope of Warwick neck, not far from Rocky Point. Two or three other houses are also going up in the same vicinity.

Miss Angie V. Warren, A. B., has tendered her resignation as teacher at the Rogers High school on account of continued ill-health. The vacancy in the faculty has not yet been supplied.

Mrs. Myra Clark Gaines has won another suit at New Orleans, which gives her possession of a large tract of land on the Mississippi river in Ascension parish, La. Myra has only to go in and win.

This is the era of bad colds. Our foreman, local reporter, clerk, and about one third of our compositors are on the sick list, and we are not able to give quite the usual amount of reading matter.

The enterprising publishers of the Quill announce the discontinuance of their newspaper venture in the issue of this morning. It was a small, but worthy sheet, altogether too good to live in this cold world of ours.

The Boston Journal says, at one of the banks which yesterday paid the gold interest coupons of one of our largest railroads, the holders of coupons were given their choice of bills or gold, and eight out of ten took bills.

The Rev. Geo. H. Hepworth will lecture this evening at the Opera House. His subject is "Who Shall Win." Mr. Hepworth ranks with Geo. Wm. Curtiss and Dr. Holland as an orator, and it is not likely that we shall have a better lecture in the whole course. He is entitled to a full house.

The fare between New York and Boston by O. C. railroad and the Fall River steamboats is now fixed at $1.50. Tickets are good only on the day of sale for continuous passage. The travelling public will doubtless appreciate such an arrangement and patronize a line that offers accomodations that cannot be surpassed.

The Providence Journal gives a summary of all the savings institutions in Rhode Island. The total amount of deposits is $44,266,882, a decrease in a year of $5,300,000; whole number of depositors, 93,053, a decrease in a year of 6573; excess of assets over liabilities, $1,517,970; amount loaned on mortgages of real estate, $21,400,600.

The annual statement of precious metals produced in states and territories west of the Missouri river, including British Columbia and receipts in San Francisco from the west coast of Mexico, during 1878, shows aggregate products as follows: Gold, $38,856,231; silver, $3,874,639; lead, $3,452,000;—the total being less by $17,267,132 than for 1877.

The application of a Chinaman in Boston for naturalization papers was refused yesterday by the clerk of the United States circuit court. The grounds for this refusal were based on the decision of Judge Lowell, that the petitioner was of the Mongolian race, and consequently was not entitled to the provisions of the statute, which provides that all applicants must be "free whites" or Africans, or persons of African descent.

This is the time above all others when a man can do good by promptly paying his small bills. Money should be kept in circulation, and a man who has an unpaid bill, and at the same time has the money with which to pay it, and delays, is inflicting a public injury by every hour's delay. The man who sends that bill needs it with which to pay his bills, and so on from hand to hand all along the street.

Iceland must be a lonely place for a homestead. A letter from there avers that an earthquake was felt in Reikjavik on the 1st of December, and at the same time "large fires" were observed in the distance in the sea, supposed to have been a volcanic submarine eruption. The weather has been very bad, a number of vessels have been lost, and large flocks of sheep have been killed by the heavy snow storms, or literally blown from the cliffs into the sea.

Dwight's Journal of Music has a very excellent and very discriminating *critique* on the concert of the Newport Choral Society, in which it gives much generous and deserved praise, and also points out the faults of the chorus on that evening. It admits that, as a whole, the music was remarkably rendered for so young a society, and its faults are those which time will cure; for the readiness of the members to learn is one of the marked characteristics spoken of.

### *RESUMPTION IN NEWPORT.*

Our Banks were fully prepared for resumption and each and all held sufficient specie to meet any contemplated emergency. Inquiry made today at the several bank counters shows that in no case was there a demand made for specie in the business of the day. All transactions took precisely the usual form. Nobody wanted gold and in some cases when it was offered by the cashiers it was politely declined.

A similar result is shown by to-day's business at the close of bank hours. Four banks tell us that they have taken more gold than they have paid out and more than usual. We hear of one man who wished a dividend paid in specie and was accomodated with silver dollars in part, which he afterward found were trade dollars. These were given him as a joke to see if the sharp customer was as sharp as he thought himself to be. He was not.

### *THE INDIAN PROBLEM.*

Some approach is being made to a right conclusion concerning our treatment of the Indians. We have long been of the opinion that our government should make no treaties with Indians within our jurisdiction, nor feed and clothe them any more than in case of any other portion of our population. Let them be placed on a level with other people and treated as such in all respects. For a time it would be necessary to have some special over-sight and give them special aid but only in the direction of making them civilized and decent. Our past methods are inherently vicious throughout and should be abandoned as quickly as possible. The Indian like the white man or the negro should be made to understand that he must work and earn his living. He must be made to respect the rights of property, to have his home and stay there. He should be made a citizen and be fitted for citizenship. At the present we spend millions of dollars to help keep up a system of barbarism, and maintain the modes of life among these aborigines the existence of which all deplore. Even in Rhode Island we yearly go through the farce of legislating for the Narragansett Indians though the tribe has no actual existence. Some of our legislators seem to have a lingering love for this relic of barbarism and are bound to maintain it as long as possible even at the public expense.

But a gleam of light is breaking in, at Washington, upon those charged with the care of Indian affairs. A committee of the Senate has conducted an inquiry into the condition of affairs in the Indian Territory by taking testimony during the recess of Congress. They have agreed to recommend the enactment of legislation by Congress which shall provide:—

First—For the establishment of a United States Court in the Indian Territory, to possess both criminal and civil jurisdiction.

Second—That all the Indians comprising the "Five Nations" shall be made citizens of the United States, amenable to the Federal laws and competent to serve on juries in the United States Courts.

Third—That the lands now held in common shall be divided and held in severalty, but inalienable for a limited term of years.

The sub-committee do not at present recommend the establishment by Congress of a regular territorial government for these Indians, but provide merely that they shall be entitled to representation in Congress by a Delegate. The sub-committee will probably advise the insertion in the proposed bill of a proviso that the conditional land grants which the various railroad companies desiring the settlement of this Territory have announced themselves willing to relinquish, shall be formally relinquished. The recommendations of the sub committee will probably be endorsed by a majority of the full committee, but the entire project of legislation is strenuously opposed by the authorized legal representatives of the Five Indian Nations.

Large quantities of nitrate of soda are now exported from Bolivia. Twelve thousand tons per month are shipped from the one port of Autofogasta. It is used largely for fertilizing, and also in the manufacture of sulphuric and nitric acids, and of saltpetre or nitrate of potash. The nitrate of soda is a native product of the earth, and is simply dissolved from the earth which contains it and then evaporated and crystallized, which simple process makes a nearly pure article. The country where it is found is rainless, otherwise this product would dissolve in the rain water and be lost.

## LOCAL AFFAIRS.

—The first noon-day prayer meeting was held yesterday and was largely attended.

—Mrs. Austin L. Sands and Mr. F. P. Sands expect to remain abroad for two years.

—The Feast of the Circumcision of Jesus Christ was celebrated yesterday in both the Catholic and Episcopal Churches.

—Mrs. Augustus Whiting held a pleasant reception at her residence, Bellevue avenue and Webster street, yesterday afternoon, from 4 to 6.

—John H. West, convicted of larceny, is to be sent to the Providence County jail, not being able to pay $18.62—the amount of fine and costs.

—It was the B. T. B. M., social club that had the social in Exchange hall on New Year's eve, and not the Newport Catholic Literary Association.

—During the year 1878, three hundred and twenty-eight persons registered. There were four hundred and forty-four the previous twelve months.

—Rev. N. J. Wheeler presided at the prayer meeting to-day at the rooms of the Young Men's Christian Association. There was a fair attendance and the time was well occupied. Mr. Spencer presided at the organ.

—Mrs. Crosby, at present occupying the Fay cottage, has received information from Kingston, Ja., to the effect that her son, Rutgers, was upon the raft on which the captain and chief engineer of the Emily B. Sonder left the wreck. The lady has some hopes, therefore, that her son is yet living.

—The stereopticon exhibition at the Union Congregational Church for the benefit of the Sabbath school this evening, at 7.15, promises to be a very interesting affair. The pictures are the representations of historic ruins of the Old World, rare works of art, illustrations from natural history, and comic personations. There will also be a sale of fancy articles.

K. of H.—The list of newly elected officers of Union Lodge, No. 668, Knights of Honor, as published, contained some omissions. The following list is complete:—

Dictator—Robert McIntosh.
Vice Dictator—A. C. Titus.
Asst. Dictator—H. A. Knull.
Treasurer—W. S. Bacheller.
Reporter—John B. Mason.
Financial Reporter—J. J. Carry.
Chaplain—Robert Christie.
Guide—Allen C. Griffith.
Guardian—D. J. Lambert.
Sentinel—F. N. Barlow Jr.
Past Dictator—R. S. Franklin.
Musical Director—J. L. Frank.
Representative to Supreme Lodge—
Trustees—John J. Carry, Charles E. Spooner, T. W. Freeborn.

DAUGHTERS OF REBEKAH.—At a meeting of Esther Lodge, No. 5, Daughters of Rebekah held last night the following officers were elected for the year:—

N. G.—J. T. Delano.
V. G.—Mrs. Margaret Lee.
Secretary—Mrs. Mary S. Pitman.
Treasurer—Mrs. John Carry.

Installation will occur next Wednesday evening. The lodge was never in a more flourishing condition than at present. The choice of Mr. Delano last evening as Noble Grand was his fourth successive election to the office which he has administered with much efficiency.

### EMMANUEL CHURCH FESTIVAL.

The Children's festival at Emmanuel Church came off last evening and proved to be a most successful affair. The room was handsomely decorated. At the north end, behind a large curtain which near the close of the entertainment was drawn aside, was arranged a large arch of candles, and when the gas was lowered the lights from them had a very pretty effect. Here also was found Santa Claus' chimney inside of which was the veritable hairy and likewise hoary old gentleman himself and his man Friday. Previous to the exhibiting of this enchanting scene seven queer mortals, dressed in the quaintest manner, made their appearance before the audience. Just what they were intended to represent would puzzle either a Philadelphia lawyer, or a Mount Airy clergyman. It was an inexplicable conglomeration of old fashioned dresses and some older fashioned people last night, and it remains so today. However, after a considerable, "bobbin' and singin', and dancin' and blowin'," these seven mortals did their little utmost to sing "Mary had a Little Lamb," and very lamb-like was the effort. The children were pleased and demanded more, and Barkis being willin' the seven curious creatures sang scraps from "John Brown," "Three Little Injin Boys," "Three Crows," etc. When this part of the entertainment had been brought to a close, the big folks commenced distributing to the youngsters all the good things which were stacked up in several heaps. There was plenty of everything and when the festival wound up with the "Happy New Year to all," every body went home highly delighted with what they had seen and heard and had given them.

St. John's Reading Room.—Quite a large number of persons were present last evening at the St. John's Reading Room on the Point, when the winter entertainments were begun. Rev. G. J. Magill, rector of Trinity Church, presided and opened the proceedings with a few words. During the evening several gentlemen read and recited selections from different authors. Mr. Ernest Magill gave "Faithless Nelly Gray," Mr. Child recited "Daniel's Lament over Absalom" and "The Heathen Chinee" and Mayor Bedlow read "The New Church Organ," and other pieces. All the efforts of the several gentlemen were highly appreciated.

### A TESTIMONIAL TO A NEWPORT BOY.

Rev. M. A. Nolan of this city, who for the past seven years has been well and favorably known in connection with the Church of the Nativity, New York, in the capacity of assistant pastor, and who has recently been appointed to the pastorate of St. Augustine's Church, Morrisania, N. Y., was tendered a grand reception on Wednesday evening last by the young men of the Nativity Catholic Union at their elegant parlors in New York. Invitations were extended to many ladies and gentlemen of the parish, and to a large number of clergymen of New York and Boston, many of whom were present. From those who could not conveniently attend, communications were received expressing their regrets, and offering their congratulations to Father Nolan on the signal recognition of his activity and zeal, which it has pleased his Eminence the Cardinal to make in assigning him to the charge of a large parish.

After the program for the evening had been completed, a handsomely engrossed set of resolutions, expressive of their sorrow at losing their beloved president and founder, was presented to Father Nolan, on behalf of the young men of the Union, by Professor Eugene Aubert, of the New York Normal College.

At this point, the proceedings assumed the semblage of a surprise reception, and there was, indeed, a pleasant surprise in store for him who was the hero of the occasion; as Mr. Michael L. Doyle, in a few appropriate words, presented Father Nolan with a purse of twelve hundred dollars, the gift of those among whom he has labored so untiringly for the past seven years. The gift was echoed with hearty cheers. Father Nolan thanked his people for this substantial expression of their esteem and love, and in a very touching manner bade them farewell, bringing tears to the eyes of all; and it was plainly apparent that, although he himself was going from amongst them, he was leaving his heart with the people of Nativity Parish.

### GLEANINGS AND GOSSIP.

An ice bridge was formed Sunday at Niagara Falls, and a large number of people crossed it.

The Providence Tool Company has paid the last of $3,200,000 worth of extension notes, given three years ago, after a brief suspension.

The board of Apportionment in New York city, has fixed the appropriation for 1879 at about $30,000,000, a trifle less than last year.

A Philadelphia dry-goods merchant has added a children's room to his store, where mothers may leave their children to be nursed with rocking horses, pictures and toys while they do their shopping.

A suit for $800,000 brought by Winthrop DeWolf, receiver of the Franklin Institution for Savings, against the A. & W. Sprague manufacturing company at Providence for unpaid notes and drafts, has just been decided against the Spragues.

It is evident that the migratory quail which were turned loose near the eastern border of Springfield some months ago have taken their departure southward to find a home until spring returns again. None have been seen for some time in the locality where they were set at liberty, and where for a long time they appeared perfectly at home, and one was shot about ten days ago at Essex, Conn., which is about in the line the birds would naturally take in going due South.

The Four Per Cent Bonds.—This loan continues in great favor with all classes of investors. The absolute security it offers, its entire exemption from all taxation, the frequency of its interest payments, and the readiness with which these bonds may be converted, is attracting the attention of prudent and careful investors in all parts of the country. The Maverick National Bank of Boston was the first bank to publicly announce their appointment as government agent for the subscription and sale of this loan. This was about a year ago, and since that time their sales have aggregated many millions of dollars. The records of the department at Washington, from the recent report of Secretary Sherman, show that the Maverick National Bank has done the principal business for New England, and that only two banks in the whole country have exceeded it in amount. Upon assuming this agency they established a United States bond department as a branch of their business, affording to banks and individuals every facility for the purchase, sale and exchange of every description of government securities. In this they have been eminently successful, and the immense volume of their business enables them to give every advantage to those having any transactions in government bonds. As this is the season of the year when capitalists, trustees and persons of every class are seeking the best methods of employing funds, and changing present investments, we are glad to call the attention of our readers to the safety and convenience of this very popular loan of the government.

Col. Fred Grant will accompany his father, following in the footsteps of the Prince of Wales in the East, and going that very ordinary person several points better. The only thing that troubles us is that his plans on Gen. Sherman's staff will remain vacant. What if a war should break out in this country during his absence?—[Boston Post.

### "NEWPORT BREEZES."

[From Boston Transcript.]

It is true that very recently a woman laughed herself to death at Newport. Far and wide went the report, and now are coming back to us witticisms in all the funny papers, and in all the papers that want to be funny—witticisms, if I may call them such on this event, *tragic* at least in one household. In one of the so-called funny papers, which sees in this terrible and sudden bereavement a text for a funny article, I read in another column that American wit is something not understood in Europe, and that newspaper funnyisms such as we revel in are purely American and something no Englishman attempts. Heaven forbid that such paragraphing as this calamity in our city calls forth should spread beyond the seas, and I trust that the funny men will some time exhaust themselves as they have exhausted jokes on deaths from kerosene explosions. I do not know the woman who met such a fate here, and do not even recall her name, but I know she was a merry young woman of twenty and had been a wife but a few months. A ridiculous mistake of her husband's in using salt for sugar caused her to laugh aloud, and while she laughed she dropped dead at his feet. And at least a dozen newspapers I could name saw this event in so comical a light that the death notice is printed in their funny columns with witty (?) comments. It seems to me that nothing could be more cruelly wicked than to serve up such afflictions for the amusement and entertainment of the general public, which unfortunately allows itself to be amused in such a manner. And this sort of wit, and this feature of Journalism, we boast of as being purely American.

The managers of the Orphan's Home here sent, a few days before Christmas, to every family in the city, as well as to every store, a large paper flour bag with the printed request upon it, that donations for the little ones should be put within and returned before Christmas eve. A final clause read, "If your donation won't go into the bag, put the bag into your donation." The plan worked admirably, and the little ones were made very happy. The poor are always very well cared for at Newport, many society and fashionable people reckoning charity among their fashions, and personally working among the needy.

* * * * * * *

Mr. Staigg, the artist, has remained into this year, engaged upon the painting of a very lovely picture, a mother and child. I held in my hand, the other day, some exquisite miniatures, one of a woman once famed at Newport for her rare beauty, painted by Staigg for the gentleman who first discovered and encouraged him, while he was painting the exterior of his house, the talent which has developed that he ranks among our best artists. Some of his recent portraits in oil are strikingly beautiful. He has a modest summer house here on a side street. * * * * *

Twelve hundred and fifty dollars is now offered by different parties for the detection of the incendiary who made so many attempts to burn us up lately. This man evidently is of the same opinion as the Boston gentleman who said to me the other day, "What you *need* at Newport is a big fire, a sweeping conflagration that will wipe out your old buildings and give you a chance to broaden your streets and widen your sidewalks." What, wipe out all our landmarks? Burn down the houses that stood at the time of the Revolution?—the first Methodist steeple in the world; the oldest Jewish synagogue in America; old Trinity, which sheltered the red coats, who spared it because it bore upon its spire the English crown, still carried there? Destroy the mansions where Washington, Lafayette and Rochambeau and Berkeley ate and drank, as well as slept?—the homes in which Malbone and Allston and Stuart painted? Lay low the house, in the dining room of which the first tomatoes ever eaten were served by a host thought to have gone insane? Burn up all our old door-knockers, and tiled fireplaces, and buffets that have stood in certain corners a century?—the old Ellery mansion, in the hall of which the fire buckets still hang, as the signer hung them in seventeen hundred and something?—the walls where are imbedded Revolutionary cannon balls, hidden there a hundred years and more? Burn down all these, that we may have wide streets and brick stores? Never! And yet it was a *Bostonian* who said we *needed* a big fire here, and it has been said many times, and somebody is trying to start it.

### NOTES AND COMMENTS.

Wouldn't Gen. Grant be the right man in the right place, as the President of the Mexican republic? Order would emerge from that political chaos under his administration.—[Prov. Press.

The quarrel between Ben Hill and Gen. Colquitt of Georgia is considered likely to lead to the disorganization of the Democratic party of that State, and to the establishment of an independent party.

A number of leading society belles at Washington have organized a cooking club and hold receptions, at which all the refreshments furnished are prepared by their own hands. They call themselves "The Belles of the Kitchen."

A Nevada man drove twenty-eight miles to attend a funeral, but reached the house to find the deceased alive and recovering. He therefore brings suit for $20 damage.—[Det. Free Press.

Mr. Hayes feels lonely because there are no cattle shows to attend any more. When a man gets a habit like this fixed upon him it is like going without his customary chew of tobacco to give it up.—[Boston Post.

It is a true saying that it is an ill-wind that blows nobody good. The imputation against the credit of Mississippi was a shield to her when the swarm of thieves were placed in power over her. While her sister, Louisana, is groaning under a tremendous weight of obligations, Mississippi, the state with a bad name and no credit, is out of debt, and her treasury warrants are at par. The Southern radicals stole even the credit of the other states, but our state escaped because she had none for them to steal.—[Vicksburg (Miss.) Herald.

A few days ago the Marquis of Lorne went to skate on a pond adjoining Rideau Park, and one of the constables was sent to the place to drive away a number of boys who were also skating. The Marquis bade the constable desist, and skated for an hour in company with the boys.

ROYAL BAKING POWDER
ABSOLUTELY PURE.
Consumers should bear in mind that the incomparable "Royal" is now the only Baking Powder in the market made from pure Grape Cream Tartar, imported exclusively for this powder direct from the wine-growing district of France. And old experienced housekeeper writes that, although she has to pay a few pennies more for the "Royal," finds that it goes so much farther and works so much better, that its economy to use it. Another says she uses the powder in puddings, cakes, and all sorts of pastry, wholly without eggs, and that it makes the only biscuit her dyspeptic husband can eat. Approved by the New York Board of Health, and by Physicians everywhere.
Dr. S. DANA HAYES, State Assayer of Massachusetts, reports after making an analysis of Royal Baking Powder,—"That the materials of which it is composed are pure and wholesome."
The "Royal Baking Powder" is taking the place of Soda, Saleratus, Cream Tartar and Yeast, on account of its Superiority, Convenience, and Wholesomeness. IT IS SOLD ONLY IN CANS.

HOW TO BE YOUR OWN LAWYER.
THIS VOLUME has a fullness and completeness possessed by no other of its kind. Its law and its forms are modern. They apply to every State in the Union, to every form of society and every place of business. Would you write a will, draft a contract, draw a note, prepare a judgment or mortgage or create a lease, would you act as arbitrator, administrator, executor, guardian, trustee, fill the office of magistrate, supervisor, constable, sheriff, auditor, referee, registrar, etc., etc., you can have in this book both the law and forms. ### MORTGAGEE'S SALE.

By virtue of a power of sale contained in a certain mortgage deed made and executed by William G. Peckham of Newport, in the State of Rhode Island, (Mary H. Peckham, wife of said William, joining therein in release of her right of dower in the mortgaged premises) to the Savings Bank of Newport, dated February 21, 1869, and recorded in Volume 7 at pages 580 and 581 of the Mortgages, Land Evidence of said Newport, which said mortgage was on the 7th day of December, A. D. 1878, assigned by the said Savings Bank to John N. A. Griswold, of said Newport, the undersigned will sell at public auction on the premises and property hereinafter described, at 12 o'clock noon, on Saturday, January 25th, 1879, the lands and premises hereinafter described and all the right, title and interest which the said William G. Peckham had therein at the time of the execution of the said mortgage, and the inchoate right of dower of the said Mary H. Peckham therein, (the condition of the said mortgage deed having been broken), to-wit:

"All the following described real estate, to wit: all and singular the lands and wharves (with all and singular the buildings and improvements thereupon) conveyed to said William G. Peckham, by Charles Devens by deed dated May 1st, 1849, recorded in Volume 27, pages 442, 443 and 444 of the Land Evidence of the City of Newport, in the State of Rhode Island, and by deed dated July 19th, 1853, recorded in Volume 31, pages 183 and 184 of said Land Evidence, and by Benjamin G. Hunt by deed dated October 16, 1857, recorded in Volume 34, pages 52 and 53 of said Land Evidence and by Nathan M. Chaffee, by deed dated February 15th, 1865, recorded in Volume 38, pages 331 and 332 of said Land Evidence, all which deeds are hereby referred to and made a part hereof for more particular description of said granted premises."

And the undersigned hereby gives notice to said William G. Peckham, to Mary Ann Peckham (the supposed holder of a second mortgage on the said premises or a part thereof) and to all others interested that he intends to bid at said sale, upon the lands and premises herein advertised for sale.

JOHN N. A. GRISWOLD, Assignee of the Mortgage.

### MORTGAGEE'S SALE.

By virtue of a power of sale, contained in a certain mortgage deed, made by William A. Jack, with Mary A. Jack his wife, in release of dower, to Augustus P. Sherman, dated January 6th, A. D. 1870, and recorded in volume 7, pages 618 and 619 of the Mortgages and Land Evidence of Newport in the State of Rhode Island, (the conditions of said mortgage having been broken):

The said mortgagee will sell at public auction, on the premises and property hereinafter described, on Wednesday, the eighth day of January, A. D., 1879, at eleven o'clock in the forenoon, all the right, title and interest which said William A. Jack had, at the time of the execution of said mortgage (with the income right of dower of his said wife), in and to that paved of land in said Newport, with the buildings and improvements thereon and the appurtenances thereof, bounded, easterly, on Thomas street; northerly, on Levin street; westerly, on land late of Edward Willis, deceased; and southerly, on land late of Isaac Rice, deceased, or however otherwise bounded.

And said mortgagee hereby gives notice that he intends to bid upon said property at said sale thereof.

## SUNDRIES.

It is possible for a man to know his own mind and yet know very little.

Mrs. Whitney's "Key to the Cook-Book" is a good work, but it is not half as satisfying when a man is hungry, as the key to the pantry.

"Why should we celebrate Washington's birthday more than mine?" asked a teacher. "Because he never told a lie!" shouted a little boy.

A woman with beauty and nothing else is very much like a raw recruit sent under fire with an improved breech-loader and no ammunition.

In some parts of Europe the minister of the parish acts in the capacity of a dentist—a cure for toothache, as it were.—[Cincinnati Saturday night.

Mother [noticing her son's greediness]—"George, you should always leave the table feeling that you could eat a little more." George—"I do mother."—[Rochester Express.

A lad boasted that he and his brother won a race in a rowing match, but admitted that his share in the victory was running along the bank and howling at him.—[Binghamton Republican.

Nature may have intended man to drink water; It looks that way from the fact that she will freeze up the water-pipes on the slightest occasion and never meddle with a barrel of whiskey when she can help it.

A meddlesome old woman was sneering at a young mother's awkardness with her infant, and said: "I declare a woman never ought to have a baby unless she knows how to hold it!" "Nor a tongue either," quintly responded the young mother.

Last summer when the hot wave from the West struck us so violently, we felt as if we'd like to go out and shovel ten feet of snow off a neighbor's sidewalk, and not charge him a cent. We don't feel that way now.—[Norristown Herald.

"My son, would you suppose the Lord's Prayer could be engraved in a space no larger than the area of a nickel cent?" "Well yes, father, if a cent is as big in everybody's eye as it is in yours, I think there would be no difficulty in putting it on about four times."

"Oh dear; I meant to mend your glove," said Mrs. Jones, as Jones drew on a glove without any ends to the fingers, on a cold morning. And Jones, who had not recovered from the lodge meeting the night before, said, "I accept the 'mend-ment."—[New York Mail.

A justice of the peace in a Pennsylvania rural town married a couple the other day, and the groom asked him his terms after the knot was tied. "Well," said the justice "the code allows me two dollars." "Then" said the young man, "there's a dollar; that will make you three."

Smythe says he went down to the market yesterday, and got some of those Christmas greens they have been advertising. But he don't think much of them. Mrs. S. boiled and boiled them, and they were as tough when she got through as when she began. Smythe says give him spinach or beet-tops. If anybody likes spruce and hemlock, he can have them for them for all o' Smythe.

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON, Commissioner of Patents."

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the patent office.

EDMUND BURKE, late Commissioner of Patents."

BOSTON, October 10, 1870.

R. H. EDDY, Esq.,—Dear Sir: You procured for me, in 1860, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. THE JOURNAL

—IS A—

FIRST-CLASS

Weekly Family Newspaper,

CONTAINING

ALL THE GENERAL NEWS OF THE WEEK,

AMOUNTING TO

Twenty Five Columns of Matter,

Ten to Fifteen Columns

OF WHICH ARE OF

SPECIAL LOCAL INTEREST.

THE CONTENTS

ARE GATHERED FROM THE COLUMNS OF THE

DAILY NEWS.

AND CAREFULLY ARRANGED WITH SPECIAL REGARD TO THE WANTS OF READERS IN CITY OR COUNTRY WHO WANT A

GOOD NEWPORT PAPER

BUT WHO DO NOT TAKE A DAILY FROM THIS CITY.

Let the JOURNAL be compared with any other weekly paper published in the south part of the state and its superiority in the quantity and quality of its contents, particularly in the news departments, will be at once seen. In it are found every week all the minor matters of local news and reports of entertainments, meetings, celebrations, etc., in Newport and vicinity that in fullness and excellence will compare favorably with reports in the papers of larger cities.

We state not so much an opinion as a fact, that will become apparent to any disinterested person who compares it with other papers, when we say that, for all residents of Newport county and all persons who have moved out of the county but wish to keep posted regarding affairs at their old home, the best paper without exception —IS THE—

NEWPORT JOURNAL.

PENNSYLVANIA

RAILROAD.

Great Through Line

AND

UNITED STATES MAIL ROUTE.

The attention of the traveling public is respectfully invited to some of the merits of this great highway, to the candid assertion and belief that no other line can offer equal inducements as a continuous through route. In

CONSTRUCTION AND EQUIPMENT

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are imbedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrate the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM of SAFETY SIGNALS,

Janney Coupler Buffer and Platform,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safe-guards against accidents which have rendered them practically impregnable.

PULLMAN PALACE CARS

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE

and to all principal points in the far West and South with but once change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grand our, beauty, and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A Pleasing and Memorable Experience.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns.
